#0: About Macintosh Technical Notes

June 1992

Technical Note #0 (this document) accompanies each release of Macintosh Technical Notes. This release includes new Notes 317, 318, and an index to all released Macintosh Technical Notes. If there are any subjects which you would like to see treated in a Technical Note (or if you have any questions about existing Technical Notes), please contact us at one of the following addresses:

We place no restrictions on copying Technical Notes, with the exception that you cannot resell them, so read, enjoy, and share. We hope Macintosh Technical Notes will provide you with lots of valuable information while you are developing Macintosh hardware and software. The following pages list all Macintosh Technical Notes that have been released (both by number and by subject).

Developer Technical Support

#0: About Macintosh Technical Notes

June 1992

Technical Note #0 (this document) accompanies each release of Macintosh Technical Notes. This release includes new Notes 317, 318, and an index to all released Macintosh Technical Notes. If there are any subjects which you would like to see treated in a Technical Note (or if you have any questions about existing Technical Notes), please contact us at one of the following addresses:

20525 Mariani Avenue, M/S 75-3T
Cupertino, CA 95014
AppleLink: MacDTS
MCI Mail: MacDTS
Internet: MacDTS@AppleLink.Apple.com

We want Technical Notes to be distributed as widely as possible, so they are sent to all Partners and Associates at no charge; they are also posted on AppleLink in the Developer Services bulletin board and other electronic sources, including the Apple FTP site (IP 130.43.2.3). You can also order them through APDA. As an APDA customer, you have access to the tools and documentation necessary to develop Apple-compatible products. For more information about APDA, contact:

Internet: APDA@AppleLink.Apple.com

We place no restrictions on copying Technical Notes, with the exception that you cannot resell them, so read, enjoy, and share. We hope Macintosh Technical Notes will provide you with lots of valuable information while you are developing Macintosh hardware and software. The following pages list all Macintosh Technical Notes that have been released (both by number and by subject).
